

Printing at school from a phone

Notation.

1. *printer* is either the string lwh, lw2, or lw3.
 - lwh is the Huron lab.
 - lw2 is the Bahen mailbox.
 - lw3 is the Bahen lab.
2. *name* is a small string of valid characters.
3. *cdir* is the current directory.

Everything is case-sensitive.

Command	Function
cd <i>name</i>	Enters folder <i>name</i> .
mkdir <i>name</i>	Creates folder <i>name</i> .
rm <i>name</i>	Deletes folder <i>name</i> .
rm -i * -r	Deletes all files in <i>cdir</i> .
	Prompts Y/N for each file.
Print -P <i>printer</i> * -C <i>k</i>	Prints <i>k</i> copies of each file in <i>cdir</i> to <i>printer</i> .
Print -help	

Necessary applications:

1. FTP client (e.g. AndFTP)
2. SSH client (e.g. Termius)
