For the better understanding of the course and preparations for the final I suggest you to make yourself sure that you can do the following exercises from Gallian's Contemporary Abstract Algebra:

Ch20: 1, 2, 4, 7, 12, 21, 29, 40, 41

Ch21: 2, 7, 8, 12, 14, 18, 22, 25, 28, 30, 35, 48

Ch32: 1, 4, 5, 8, 10, 12, 13, 17, 21

These problems are numbered as in the ninth edition of the book.
