

MAT 247S Algebra II - Summary of term test marks

Total marks: 100

Number of students: 47

Median and average marks: median=67; average=57.

Number of marks between 90 and 100: 7

Number of marks between 80 and 89: 7

Number of marks between 70 and 79: 6

Number of marks between 60 and 69: 5

Number of marks between 50 and 59: 3

Number of marks between 40 and 49: 5

Number of marks between 30 and 39: 5

Number of marks less than 30: 9

Remarks:

1. Questions 1–3 are fairly routine. If a significant number of marks were deducted on one or more of these questions, there are gaps in knowledge of the basic course material.
2. Very few of the students with marks below 30 have handed in more than two problem sets. In many such cases, the marks on the problem sets handed in were below average.
